PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. The image analysis community has put much effort into developing systems for the automatic reading of various types of documents containing text, graphic information, and pictures. A closely related but much more problematic task is the reading and interpretation of line drawings such as maps, engineering drawings, and diagrams. This book considers the problem in detail, analyzes its theoretical foundations, and analyzes existing approaches and systems. PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. Armed with this workhorse of a manual, even the most computer-illiterate contractor/remodeler will be prepared to leap into the "computer age" and reap its rewards--saving time and money and reducing mistakes. The authors describe how to maximize business potential by using computers to keep a database, perform computer-aided design, generate estimates and spreadsheets, perform accounting and invoices, and more. 100 illustrations. The most up-to-date, comprehensive guide to DataCAD Written for the new 9.0 release by DataCAD staff, the hands-on Official Datacad User's Guide puts at your fingertips a complete A to Z guide to the use of this single most popular architecture-specific CAD program. Authors Michael Smith, Richard Morse, and Shelly Flanigan provide you with a tool that clarifies new features of the software, include the ability to externally reference other drawing files(XREF) and open multiple documents at the same time for cutting and pasting. Among the topics you'll find fully examined are: DataCAD: Settings and display options...printing and plotting 2D: Moving objects...editing...basic and advanced construction
